International Perspectives in Psychology: Research, Practice, Consultation

2021
International Perspectives in Psychology: Research, Practice, Consultation is committed to publishing research that examines human behavior and experiences around the globe from a psychological perspective. It publishes intervention strategies that use psychological science to improve the lives of people around the world.

The journal promotes the use of psychological science that is contextually informed, culturally inclusive, and dedicated to serving the public interest. The world’s problems are imbedded in economic, environmental, political, and social contexts. International Perspectives in Psychology incorporates empirical findings from education, medicine, political science, public health, psychology, sociology, gender and ethnic studies, and related disciplines.

The journal addresses international and global issues, including:
- inter-group relations
- disaster response
- societal and national development
- environmental conservation
- emigration and immigration
- education
- social and workplace environments
- policy and decision making
- leadership
- health care
- poverty and economic justice
- the experiences and needs of disadvantaged groups
