

Contents

1 PTSD Diagnostic Criteria, Prevalence Rates, Comorbidities, and Differential Diagnosis	1
Diagnostic Criteria	1
Prevalence	1
Comorbidities	2
Evidence-Based Assessments for PTSD	4
Evidence-Based Treatments for PTSD	5
Cultural Considerations	5
Summary	6
2 Maintenance of Distress in PTSD	7
Cognitive Contributors to the Maintenance of PTSD	7
Avoidance	8
Additional Contributors to the Onset and Maintenance of PTSD	9
Summary	10
3 Exposure Therapy: Findings From the Laboratory	11
A Few Notes About Experimental Analogs for PTSD	11
Fear Conditioning	12
Parallels Between Fear Conditioning and Trauma Exposure	15
Parallels Between Extinction Training, Extinction Retention, and Exposure Therapy	16
Summary	17
4 Psychoeducation and Getting Buy-in for CBT for PTSD	18
The Rationale for CBT in General	18
The Rationale for CBT for PTSD	20
Important Considerations for the Rationale for CBT	23
Getting Buy-in Around the Idea of Exposures	25
Summary	26
5 Optimizing <i>In Vivo</i> Exposure	27
How to Introduce <i>In Vivo</i> Exposure to Patients With PTSD	27
Planning for <i>in Vivo</i> Exposures	30
Reinforcing Exposure Practice	35
Highlighting the Learning From the Exposure	39
Helping Patients to Stay in the Present Moment	40
Reducing the Focus on SUDs	40

Planning Subsequent <i>in Vivo</i> Exposure Practices	43
Conducting <i>in Vivo</i> Exposures With the Patient	44
Summary	46
6 Optimizing Imaginal Exposure	47
How to Introduce Imaginal Exposure to Patients With PTSD	47
Imaginal Exposure Practice	50
Summary	55
7 Optimizing Interoceptive Exposures	56
Rationale for Interoceptive Exposure Practice	56
Information Gathering for Interoceptive Exposures	57
Types of Interoceptive Exposure Practices	59
Assigning Interoceptive Exposure Practices	60
Summary	61
8 Behavioral Activation	62
Data Gathering	62
Brainstorming Activities to Boost Accomplishment or Pleasure	63
Behavioral Activation Practice	64
Mixing Behavioral Activation With Exposure Practice	70
Summary	71
9 Elicitation and Processing of Trauma-Related Cognitions	72
Direct Versus Indirect Challenging of Trauma-Related Cognitions	72
Types of Trauma-Related Cognitions	73
Summary	85
10 Managing Suicide Risk in the Treatment of PTSD	86
Understanding Suicide Risk in the Context of PTSD	86
Assessing Suicide Risk	88
Appropriateness of Treatment for PTSD	92
Clinician Anxiety About Working With Patients With Significant Suicidal Ideation	93
Safety Planning Intervention and Crisis Response Planning	94
Lethal Means Safety	95
Coping With Suicide Loss	96
Summary	97
11 Working With Survivors of Intimate Partner Violence	98
Assessing Intimate Partner Violence	99
Mandated Disclosures	100
Social Network Dynamics in the Context of Intimate Partner Violence ..	101
Therapeutic Stance When Working With Survivors of Intimate Partner Violence	103
Safety Plans for Survivors of Intimate Partner Violence	104

Final Notes About Therapeutic Stance in Preparation for CBT for PTSD for Survivors of Intimate Partner Violence	105
Assessing Readiness to Begin CBT for PTSD in the Context of Intimate Partner Violence	106
Trauma-Related Cognitions for Survivors of Intimate Partner Violence ..	107
<i>In Vivo</i> Exposures for Survivors of Intimate Partner Violence	108
Imaginal Exposure Considerations for Survivors of Intimate Partner Violence	108
Exposure to the Former Perpetrator of Violence	109
Summary	109
12 Navigating the Legal System in PTSD Treatment	110
Intersections With the Legal System Following Trauma	110
Readiness for CBT for PTSD in the Context of Legal Involvement	113
Social Support to Navigate Legal Proceedings	114
Securing a Protective Order/Restraining Order	115
Wariness of People Who Take Advantage of Trauma Survivors to “Help” Them	118
Custody and Disability Determinations	118
Summary	119
13 Training Supervisees in Evidence-Based Practices for PTSD	120
The Frame of Supervision	120
Supporting the Therapist Who Is New to CBT for PTSD	121
Common Mistakes by Therapists Who Are Newer to CBT for PTSD	122
Common Mistakes by Therapists Who Are New to Imaginal Exposure ..	123
Common Mistakes for Therapists Who Are New to Processing Following an Exposure	126
Summary	128
14 Implementing Evidence-Based Treatments for PTSD in the Community	129
Assessment	129
Readiness for PE in Community Settings	130
Modifications for Working in the Community	130
Managing Other Clinicians Who Interface With the Patient	131
Balancing When to Be Flexible Versus Sticking to the Protocol	132
Summary	135
15 Family Member Involvement in CBT for PTSD	136
Assessment Considerations	136
Psychoeducation Considerations	137
<i>In Vivo</i> Exposure Considerations	138
Imaginal Exposure Considerations	140
Behavioral Activation Considerations (Including Use of Rewards)	141
Extinction Bursts in Family Members	143
Summary	144

16 Self-Care in Working With Trauma Survivors Using CBT for PTSD	146
A Personal Anecdote	146
Some Important Reminders About Self-Care When Working With Patients With PTSD	147
Summary	148
References	149
Appendix: Resources and Tools	163
