

Intelligence and Development Scales® – 2nd Edition (IDS-2)

Pricing Guide

With the IDS-2 you can assess: Intelligence and Executive Functions, Psychomotor Skills, Social-Emotional Skills, Scholastic Skills and Motivation and Attitude. To get a complete picture of the examinee you will want to use all six domains and 30 subtests – but you can also choose to adapt your testing according to individual needs. For this reason, we strive to offer flexibility in ordering.

The IDS-2 Kit

The IDS-2 kit contains all the materials you'll need for the complete assessment: two manuals, kit materials, administration booklets, and scoring templates. It also contains 5 copies of all consumable items: record forms, response sheets and booklets, as well as extra online scoring usages*.

Test Administration

Materials in the IDS-2 kit are color-coded to assist with administration. Additionally, the IDS-2 Administration and Scoring Manual is color-coded to correspond with the rest of the kit materials, and Table 3 lists what is included in the kit while Table 4 outlines which materials are needed for each subtest. For all 30 IDS-2 subtests, materials required are listed in the Administration Booklet and IDS-2 Administration and Scoring Manual.

Online Scoring

After your initial kit order, you'll receive an email from our customer support team containing your login details for our digital platform, Hogrefe Testsystem (HTS). On HTS you will enter recorded raw scores to be automatically converted to normative scores. You can then view, save and/or download the report results. For each physical record form, you will receive one online scoring usage* that corresponds with the domain and age group.

What to Order

The next pages list all available product options, including individual items and recommended product combinations tailored to specific age groups and domains. Use these guides to easily choose the most appropriate materials for your needs.

There is currently no subscription cost for HTS, and the cost for online scoring and reports is included in the cost of the consumable materials. Contact customersupport@hogrefe.com with additional questions and to submit purchase orders.

**With the purchase of an IDS-2 kit you will receive additional usages for practice.*

Introductory Kit

Product Name	Product Number	Price
Introductory Kit - Consisting of: Test Development and Interpretation Manual; Administration and Scoring Manual; 6 Administration Binders; 6 Sets of Record Forms (packs of 5); Response Sheets, Response Booklets, and Stimulus Materials; HTS Online Scoring Usages; Suitcase	HUS5562000	\$1,899.00
